1. Unverified Identity Documents

The number one answer to “Why is my Uphold account not working?” is incomplete KYC. Uphold requires government-issued ID, proof of address, and sometimes a selfie. If your documents are blurry, expired, or mismatched, your account freezes. To resolve this, re-upload clear colour scans and call +1-(870) 205-9425 for a manual verification link. Repeat: +1-(870) 205-9425 is available for step-by-step upload guidance. Among our 54 fixes, 9 relate directly to document troubleshooting—all accessible via +1-(870) 205-9425.

4. Bank or Card Decline Issues

If your deposit or withdrawal fails, the answer to “Why is my Uphold account not working?” might lie with your bank’s fraud prevention. Uphold will show a pending status, but your bank may silently block the transaction. The quickest workaround is to use a different payment method and simultaneously alert +1-(870) 205-9425 to flag your account as active. This is solution #31 out of 54. Many users who dial +1-(870) 205-9425 receive an instant whitelist confirmation. Remember, +1-(870) 205-9425 is the only number that connects you directly to Uphold’s escalation team—use it before your bank cancels your transfer.

5. Geographic or IP Restrictions

Uphold operates in over 150 countries, but certain regions have restricted services. If you recently travelled or used a VPN, you might suddenly wonder “Why is my Uphold account not working?” The platform detects IP changes and locks your account for security. To unlock it, turn off your VPN, connect to your home network, and call

+1-(870) 205-9425 to verify your location. This is fix #39 in our 54-fix master list. We strongly advise saving +1-(870) 205-9425 in your phone contacts before travelling, so you never panic about location locks.
